Introduction to AI+ Power Awards

The “BUSINESS GOVirtual Tech Awards”, inaugurated in 2022, aiming to recognize and celebrate technological innovations by honoring outstanding tech companies . With the evolution of AI, the focus of the Awards this year will be on AI specifically, namely the AI+ Power Awards!

In the past 3 editions, the Awards successfully highlighted over 65 innovations, facilitated collaborations, and provided a platform for tech companies and startups to showcase their solutions. Over 40 companies gained visibility, investment, and partnership opportunities.

Objectives

- **Recognize Pioneering AI Innovations**
Celebrate exceptional AI advancements and their significant impact across multiple sectors.
- **Foster Excellence in AI Development**
Elevate companies, startups, and innovators that push the boundaries of AI technology to improve business operations and societal challenges.
- **Promote AI+ Synergies**
Encourage solutions that blend AI with traditional industries, fostering innovation in areas like retail, education, marketing, and entertainment.
- **Encourage AI Integration Across Industries**
Highlight innovative projects that demonstrate successful AI integration in key areas such as retail and eCommerce, sustainability, healthcare, education and cybersecurity.

AWARD CATEGORIES

Awards Categories

AI+ in Business Awards (SME/ Large Corporate)

This award highlights the most impactful AI applications/solution that are revolutionizing business operations and strategies. It celebrates AI's role in driving efficiency, enhancing customer experiences, and creating value in various sectors.
